

VITAL ZONE - BLACK BEAR

Broadside. Schematic outline with the heart-lung zone marked.

Reduced to 1:8.4 (full size 1500 x 950 mm) - this is a reference reproduction, not a full-size competition target

Dimensions

Measurement	Value
Vital zone	254 mm (10")
On this sheet	30.1 mm
Body, full size	1500 x 950 mm
Scale	1:8.4

Vital zone 10 in / 254 mm - heart and lungs, broadside. Bear vitals sit lower than deer: aim behind the front leg, in the bottom third of the body. A bear has no visible neck and a rounded back, so the landmarks that place the shot on a deer are not there - the front leg is the one reference that is. Schematic outline, not an anatomical drawing - the zone is where to aim on paper, and the animal in front of you is the one that decides whether the shot is there. Reduced: measure the bar below before using any dimension off this sheet.
