

VITAL ZONE - MOOSE

Broadside. Schematic outline with the heart-lung zone marked.

Reduced to 1:16.3 (full size 2900 x 2100 mm) - this is a reference reproduction, not a full-size competition target

Dimensions

Measurement	Value
Vital zone	406 mm (16")
On this sheet	24.9 mm
Body, full size	2900 x 2100 mm
Scale	1:16.3

Vital zone 16 in / 406 mm - heart and lungs, broadside, behind the shoulder. The largest zone on any of these sheets, and the one most often missed high: a moose carries a shoulder hump above the spine, and holding on the top of the animal puts the shot over the lungs into muscle. Schematic outline, not an anatomical drawing - the zone is where to aim on paper, and the animal in front of you is the one that decides whether the shot is there. Reduced: measure the bar below before using any dimension off this sheet.
