Drawn 1:1 from ISSF Rule 6.3.4. Rings step 5 mm in diameter, so each ring is 2.5 mm wide and the black covers rings 4 to 9. The 10 is a 0.5 mm white dot; the inner ten is not a ring but a state of the card, scored by gauge once the dot is shot out. Practice reproduction - not an ISSF-approved target, and no ISSF mark is used.

CHECK BEFORE USE - this bar must measure exactly 100 mm. Print at 100%, not "fit to page".
